Novel scenarios in ultra-cold lattice gases: Zig-zag optical lattices and gases with periodically modulated interactions

Thursday, 19 July 2012 16:50 (0:40)

Content

Summary

Primary author(s) : L. SANTOS (Leibniz Univ. Hannover, Germany)

Presenter(s) : L. SANTOS (Leibniz Univ. Hannover, Germany)

Session Classification : Novel scenarios in ultra-cold lattice gases: Zig-zag optical lattices and gases with periodically modulated interactions
