Conference on Entanglement and Non-Equilibrium Physics of Pure and Disordered Systems | (smr 2822)

Wednesday 27 July 2016

DAY 3 - WEDNESDAY - Adriatico Guest House - Kastler Lecture Hall (09:10-17:10)

time	title	presenter
09:10	Effective temperatures in quantum quenches	LETICIA CUGLIANDOLO
09:50	Universality, short-time dynamics and aging after a quench in isolated quantum systems	ANDREA GAMBASSI
10:30	Coffee Break	
11:00	Number variance and entanglement entropy of free fermions in a one dimensional harmonic trap	SATYA MAJUMDAR
11:40	Entanglement dynamics following quantum quenches in Floquet topological insulators and quantum critical systems	ADITI MITRA
12:20	Lunch break	
14:30	Size-driven quantum phase transitions	DAVID PEREZ-GARCIA
15:10	Ising and Kitaev chains with long range interactions	ELISA ERCOLESSI
15:50	Coffee break	
16:20	Universal properties of the Shannon mutual information of critical quantum chains	FRANCISCO ALCARAZ
17:00	Closing remarks
