# Eighth ICTP Workshop on the Theory and Use of Regional Climate Models | (smr 2831)

## Tuesday 31 May 2016

**notitle - AGH (Kastler Lecture Hall) (09:00-17:00)**

time	title	presenter
09:00	Representing the present-day regional climate over Southern Africa in a double nested system	BROWNE KLUTSE, Nana Ama
09:20	How can regional climate models reproduce the annual cycle of precipitation in Europe?	HALENKA, Tomas
09:40	Studies with RegCM4: Cyclones over South Atlantic and diurnal cycle of precipitation, new microphysics scheme and seasonal forecast over South America	REBOITA, Michelle
10:00	Study of climate variability and future climate projections over the Southern Central Andes region through CMIP5 GCMs	ZAZULIE, Natalia
10:20	coffee break	
10:50	Lab session	
12:30	lunch break	
14:00	Lab session	
15:30	Coffee break
