ICTP-IITM-COLA Targeted Training Activity (TTA): Towards improved monsoon simulations | (smr 2896)

Thursday 16 June 2016

Student presentations 15' each: - AGH (Giambiagi Lecture Hall) (17:00-18:00)

time	title	presenter
17:00	Assessment of Long-term Spatio-temporal Rainfall Variability over Ghana using Wavelet Analysis'	MICHAEL BAIDU
17:15	Diagnostic investigation of bay of Bengal branch of monsoon during normal and delay onset over gangetic West Bengal'	DEBANJANA DAS
17:30	'Meta-heuristic ant colony optimization technique to forecast the amount of summer monsoon rainfall: skill comparison with Markov chain model'	SAYANTIKA GOSWAMI
17:45	'Are semi-arid regions hotspots of climate change in Africa and South Asia?'	ZAROUG MODATIR ABALLA HASSA
