Conference on Weyl Fermions in Materials | (smr 3157)

Monday 23 October 2017

Monday, 23 October - Giambiagi Lecture Hall (AGH) (09:00-21:00)

time	title	presenter
09:00	Registration & morning tea	
10:30	Opening	
10:40	Topological insulators to Weyl semimetals and more: Discovery and the new frontier	HASAN, M. Zahid
11:25	Strongly disordered Weyl semimetals: the low-energy field theory perspective	BAGRETS, Dmitry
12:10	Metal-semimetal transition in Weyl fermions as a self-focusing phenomenon in non-linear diffusion	BALOG, Ivan
12:35	Lunch break	
14:30	Disorder and interaction in Dirac-Weyl materials	DAS SARMA, Sankar
15:15	Coffee break	
19:00	Welcome Reception
