

Abstract preparation for Workshop on “Understanding Quantum Phenomena with Path Integrals: From Chemical Systems to Quantum Fluids and Solids”

First A. Author¹, Second B. Author^{1,2}, and Third C. Author²

¹*(Presenting author underlined) Affiliation 1*

²*Affiliation 2*

This document is the template for contributed abstracts and gives the guidelines for preparing and submitting abstracts for the Workshop on “Understanding Quantum Phenomena with Path Integrals: From Chemical Systems to Quantum Fluids and Solids”, to be held at ICTP in Trieste (Italy) from 3 to 7 July 2017.

The maximum length of the abstract is one page, including references. When preparing the abstract in L^AT_EX, please use the standard *article* class with the size definitions as in the template. Please follow the template for the structure of the abstract, formatting its elements including capitalizing the title, spacing between the elements, etc. Use superscripts for relating authors to multiple affiliations. Format references [1, 2] as shown below.

Convert your abstract to **PDF format** for submission. The PDF file should be uploaded in the “*Upload Abstract*” field with the on-line application form.

Contributed Abstracts will be considered for a poster presentation and for a flash talk (3 or 4 minutes) intended to advertise the content of the poster. The applicant is gently requested to express if he/she is willing to present a poster and a flash talk with a comment in the “*Comments*” field in the on-line application form. Applicants are warmly invited to submit a research Abstract even if they do not intend to give a poster/flash-talk presentation.

Participants willing to participate to the flash talk session will be requested to send a PDF file with their slides (maximum 3/4 slides) before the workshop beginning.
