International Conference on Multi-Condensate Superconductivity and Superfluidity in Solids and Ultra-cold Gases | (smr 3204)

Contribution ID : 19 Type : not specified

Dissipationless Electron Transport, Multicomponent Superfluidity and Other Strongly-Correlated Quantum Many-body States in Electron-hole Double Bilayer Graphene

Wednesday, 16 May 2018 09:00 (0:40)

Content

Summary

Presenter(s): NEILSON, David (Dept. of Physics, University of Camerino, Camerino MC, Italy)

Session Classification: Session VII - Superfluidity in Bilayer Systems
