

International Conference on Multi-Condensate Superconductivity and
Superfluidity in Solids and Ultra-cold Gases | (smr 3204)

Contribution ID : 24

Type : **not specified**

Vortices in Dipolar Bose-Einstein Condensates

Wednesday, 16 May 2018 12:20 (0:30)

Content

Summary

Presenter(s) : BALAZ, Antun (Scientific Computing Lab., Institute of Physics Belgrade, Serbia)

Session Classification : Session VIII - Emergent Phenomena in Multicomponent Ultracold Gases
