International Conference on Multi-Condensate Superconductivity and Superfluidity in Solids and Ultra-cold Gases | (smr 3204)

Contribution ID: 35 Type: not specified

Evidence for Multi-valley Superconductivity and Possible Charge Density Waves in Ion-gated Few-layer MoS2

Thursday, 17 May 2018 11:50 (0:30)

Content

Summary

Presenter(s): PIATTI, Erik (Superconductivity and Magnetism in Innovative Materials, Dept. of Applied Science and Technology, Politecnico di Torino, Italy)

Session Classification: Session XII - Competing Orders in Ultrathin Superconducting Systems
