Advanced Workshop on FPGA-based Systems-On-Chip for Scientific Instrumentation and Reconfigurable Computing | (smr 3249)

Thursday 29 November 2018

- Adriatico Guest House - Giambiagi Lecture Hall (09:00-21:00)

time	title	presenter
09:00	Digital arithmetic and numerical representations	S. P. BAZARGAN
10:00	Coffee break	
10:30	FPGAs computing just right thanks to application-specific arithmetic	F. DE DINECHIN
11:30	The FloPoCo arithmetic core generator	F. DE DINECHIN
12:30	Lunch break	
14:00	Hardware and Software Interrupts	C. SISTERNA
15:00	Lab Tutorial: Hardware and Software Interrupts	R. MELO
16:00	Coffee break	
16:30	Lab activities with Tutors	
19:00	Welcome reception
