IPCC Expert Meeting 2018 Assessing Climate Information for Regions

ICTP, Trieste, 16 - 18 May
<http://ipcc-regional2018.ictp.it>

The Expert Meeting will consider:

- the assessment of regional climate information within the IPCC AR6 report that will build on multiple sources of information, including observations, climate model products and downscaling techniques
- current understanding of local, regional and large-scale drivers and feedbacks of regional climate and change.
- how regional information is used and assessed within the climate change risk assessment framework.
- the scoping of a regional atlas and the development of mechanisms to strengthen the integration of the assessment of regional climate information across the IPCC, for example related to regional impacts, vulnerability and risk.

Scientific Steering Committee

Valerie Masson-Delmotte
Panmao Zhai
