

Scientific Program

Monday, 3 December 2018

Registration

08:45 ↓	A. Franciosi Welcome
09:00 ↓	B.Gopal Visualizing bacterial infection: imaging and structural biology of microbial pathogens
09:45 ↓	Chair: M. Bolognesi Discussion
10:15 ↓	<i>Coffee break</i>
10:45 ↓	S. Zacchigna Can synchrotron radiation shed fresh light on cardiovascular imaging?
11:30 ↓	Chair: A. Bravin Discussion
12:00 ↓	<i>Lunch</i>
13:30 ↓	Z. Liu Can we do better with in-situ photoelectron spectroscopy?
14:15 ↓	Chair: G. Margaritondo Discussion
14:45 ↓	P. Abbamonte A few crazy ideas for things to do with coherent or ultrafast X-rays
15:30 ↓	Chair: K. Rossnagel Discussion
16:00 ↓	<i>Coffee break</i>
16:30 ↓	M. Simon Dynamics and structures perspectives in AMO with synchrotron radiation
17:15 ↓	Chair: L. Avaldi Discussion
17:45 ↓	K. Janssens Cultural heritage problems and synchrotron radiation: today and in a decade or two
18:30 ↓ 19:00	Chair: J. Kolar Discussion

Tuesday, 4 December 2018

09:00 ↓	T. Salditt High resolution 3D X-ray imaging of biological cells and tissues: what can we learn?
09:45 ↓	Chair: C. Jacobsen Discussion
10:15 ↓	<i>Coffee break</i>
10:45 ↓	G. Ruocco Soft Matter in the next decades: from liquids to bio-systems
11:30 ↓	Chair: P. Wernet Discussion
12:00 ↓ 12:15	A. Franciosi Closing remarks

Fonda Fasella Award

Chair: C. Masciovecchio

14:00 ↓ 14:40	D. Gauthier FONDA - FASELLA AWARD
