Conference on Nanophononics, Bridging Statistical Physics, Molecular Modeling and Experiments | (smr 3302)

Contribution ID: 24 Type: not specified

Invited talk 11 "Molecular Dynamics Simulations of low-dimensional Materials: Accurate Force Field Generation and Investigation of Phononic Properties"

Wednesday, 26 June 2019 09:45 (0:45)

Content

Summary

Presenter(s): CEM SEVIK

Session Classification: not yet classified
