# The idea

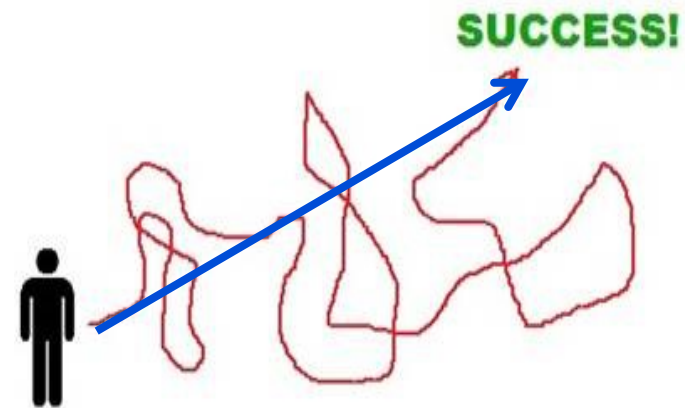

We think that the successful people are;

- Perfect.
- Or ... just lucky people.

**Because.....**

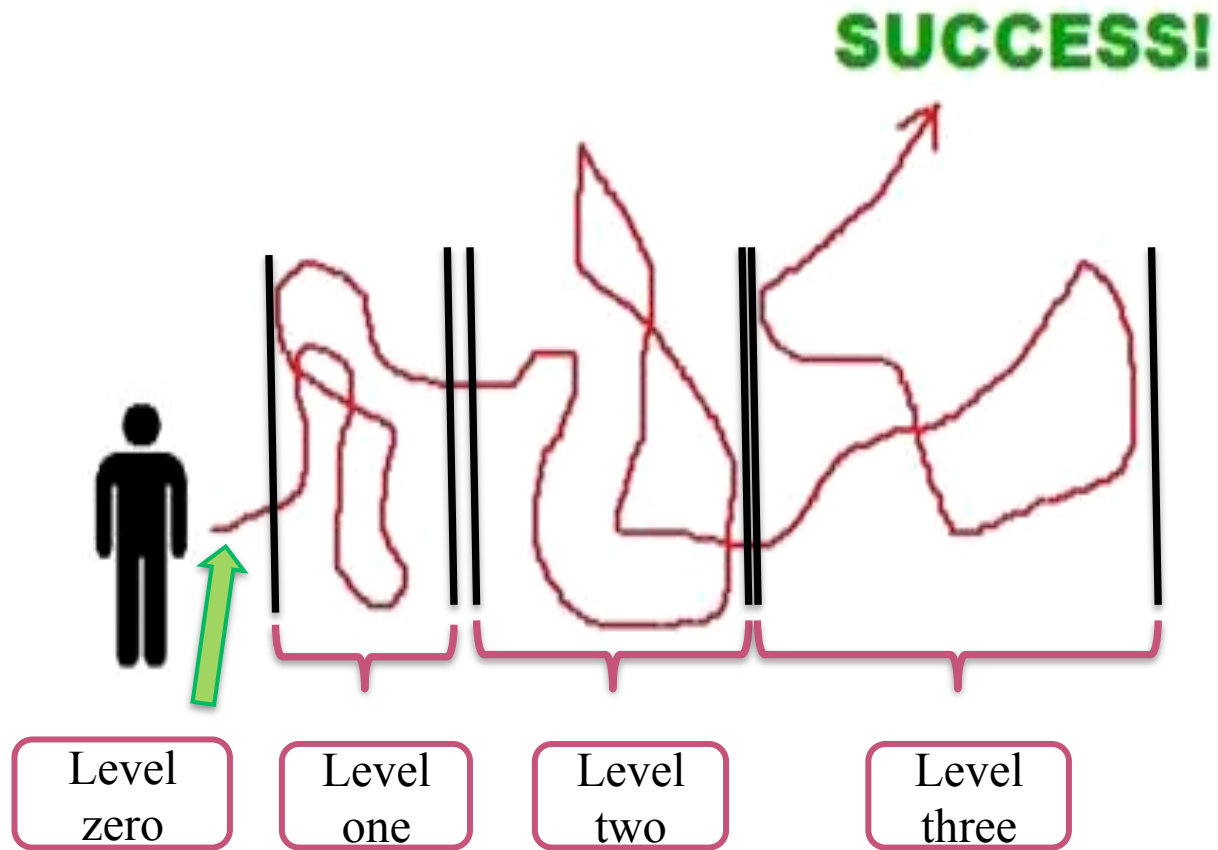

The lack of high resolution, time dependent investigation!!!

# Effective parameter: Leader/guide!

# My story!

# In Africa (Sudan):

- B. Sc. in Physics (honour) at Sudan university of Science and technology (SUST), **2003-2007**.
- National service in Laser institute at SUST, **2007-2008**.
- Teaching assistant in Physics department at SUST, **2007-2010**.

The problems mainly were about **education system** and **money**.

**Study abroad with scholarship**
