School on Quantum Information Theory and Thermodynamics at the Nanoscale | (smr 3426)

Wednesday 26 February 2020

DAY 3 - (09:00-18:30)

time	title	presenter
09:00	II -- The ground state structure of local Hamiltonians	ERCOLESSI, Elisa
10:00	Coffee break	
10:30	II. Spectral properties of complex quantum systems	BUCHLEITNER, Andreas
11:30	III. Open Quantum Systems: Divisible dynamical maps and quantum Markovianity	CHRUSCINSKI, Dariusz
12:30	Lunch break	
14:00	II. An invitation to quantum metrology : Hypothesis testing	PARIS, Matteo
15:00	Coffee break	
15:30	III. Quantum Transport and Thermodynamics: Rate equations	BENENTI, Giuliano
16:30	III. Quantum Speed Limits in open quantum systems	CAMPBELL, Steve
17:30	Discussion
