Joint ICTP-IAEA International School on Radioactive Waste Cementation | (smr 3484)

Wednesday 21 October 2020

Retention of radionuclides by cementitious materials. - Online (10:00-13:15)

time	title	presenter
10:00	Fundamental aspects of leaching processes - Part 1	PROVIS, John
10:45	Static leaching tests - Part 1	ABDEL RAHMAN, Rehab O.
11:30	Break	
11:45	Chemical durability and long-term performance of cement-based materials, with experimental and modelling - Part 1	CHOMAT, Laure
12:30	Acoustic emission monitoring of cementitious wasteforms - Part 1	OJOVAN, Michael I.
