# Joint ICTP-IAEA International School on Radioactive Waste Cementation | (smr 3484)

## Thursday 19 November 2020

### Chemical durability and long-term performance: experimental and modelling approaches - Online (10:00-13:15)

time	title	presenter
10:00	Cement composition with high radiation stability - Part 2	PETROV, Vladimir G.
10:45	Improving radionuclide retention in cementitious waste forms using getters - Part 2	ASMUSSEN, Matthew
11:30	Break	
11:45	Parameters effecting the retention of radionuclides by cementitious materials - Part 2	PETROV, Vladimir G.
12:30	Enriched lecture or case study regarding durability of cemented waste - Part 2	LANGTON, Christine
