

School on Quantum Information Theory and Thermodynamics at the
Nanoscale 24 – 28 February, Al Hoceima

Workshop on Quantum Information Theory and Thermodynamics at the
Nanoscale 2 – 6 March, Al Hoceima

Venue:

The School and Workshop take place at the Hotel Mercure in the center of the city of Al Hoceima:

<https://www.accorhotels.com/gb/hotel-9676-hotel-mercure-quemado-resort/index.shtml>.

Airports:

The city is served by the Cherif Al Idrissi Airport.(AHU)

There are direct flights to this airport from Rotterdam, in the Netherlands operated by Transavia. The city can be reached by taxis from the airport (15 Km).

Non direct flights, with one stop at the Casablanca International airport (CMN) or Tangier Ibn Battouta airport, are also easy to find.

Nador International airport.(NDR), with direct flights from essentially Belgium, France, Germany, Netherlands and Spain, is located at some 130 Km from Al Hoceima. Bus pickups will be organized for the participants on some specific dates (further details will be given later).

Taxis:

In all Moroccan cities there are two types of taxis: Grand taxi (white in general) and petit (small) taxis which are colored and the color differs from one city to the other; in Al Hoceima small taxis are blue. Small taxis are allowed to transfer people inside the city and cannot leave the city. They can carry up to 3 passengers. You can pick up a free taxi by calling it on the road or from the taxis stations. The fares are in general reasonable and are indicated by the counter inside the taxi and depend on the distance travelled and the time taken for the travel. Taxis remain perhaps the best way to move inside Al Hoceima.

Grand taxis, can be used for travels between different cities. They can take up to 6 passengers from the reserved taxi stations; the fares depend on the distance travelled.

Car rental:

Car rental agencies are available in all major airports in Morocco and there are national as well as international companies at the arrival terminals. Car rental is an option to consider if you are coming in small groups (but it is advised to use a GPS system to help you find your way).
