Conference and Euromech Colloquium #480 on High Rayleigh Number Convection

4 - 8 September 2006
Miramare, Trieste, Italy

The Abdus Salam International Centre for Theoretical Physics is organizing a **Conference and Euromech Colloquium #480 on High Rayleigh Number Convection** from 4 - 8 September 2006. It will be directed by Professors **D. Lohse** (University of Twente, The Netherlands) and **R. Verzicco** (Technical University of Bari, Italy). Local Organizer: **J. Niemela** (Trieste, Italy).

R. Verzicco

F. Toschi

K.Q. Xia

PARTICIPATION

Scientists and students from all countries which are members of the United Nations, UNESCO or IAEA may attend the Conference. As it will be conducted in English, participants should have an adequate working knowledge of this language. Although the main purpose of the Centre is to help research workers from developing countries, through a programme of training activities within a framework of international cooperation, a limited number of students and post-doctoral scientists from developed countries are also welcome to attend.

As a rule, travel and subsistence expenses of the participants should be borne by the home institution. Every effort should be made by candidates to secure support for their fare (or at least half-fare). However, limited funds are available for some participants who are nationals of, and working in, a developing country. Such support is available only for those who attend the entire activity. There is no registration fee.

The **Application Form** is obtainable from the ICTP WWW server: http://cdsagenda5.ictp.trieste.it/full_display.php?smr=0&ida=a05223 (which will be constantly up-dated) or from the activity Secretariat. It should be completed and returned before **5 June 2006** to:
