

Measurement of proton resistance in cathode catalyst layers and its correlation with the ionomer-to-carbon ratio

Thursday, 24 May 2007 14:30 (0:30)

Content

Summary

Primary author(s) : DANIEL BAKER (General Motors R&D Center, Warren, U.S.A.)

Presenter(s) : DANIEL BAKER (General Motors R&D Center, Warren, U.S.A.)

Session Classification : Measurement of proton resistance in cathode catalyst layers and its correlation with the ionomer-to-carbon ratio
