Conference on "From Physical Understanding to Novel Architectures of Fuel Cells" | (smr 1841)

Contribution ID: 40 Type: not specified

Measurement of proton resistance in cathode catalyst layers and its correlation with the ionomer-to-carbon ratio

Thursday, 24 May 2007 14:30 (0:30)

Content

Summary

Primary author(s): DANIEL BAKER (General Motors R&D Center, Warren, U.S.A.)

Presenter(s): DANIEL BAKER (General Motors R&D Center, Warren, U.S.A.)

Session Classification : Measurement of proton resistance in cathode catalyst layers and its

correlation with the ionomer-to-carbon ratio
