

Workshop on Nano-Opto-Electro-Mechanical Systems Approaching the
Quantum Regime | (smr 2164)

Contribution ID : 28

Type : **not specified**

Optically induced self oscillations in mechanical resonators

Wednesday, 8 September 2010 11:20 (0:40)

Content

Summary

Primary author(s) : EYAL BUKS (Technion, Haifa, Israel)

Presenter(s) : EYAL BUKS (Technion, Haifa, Israel)

Session Classification : Optically induced self oscillations in mechanical resonators
