

Workshop on Nano-Opto-Electro-Mechanical Systems Approaching the
Quantum Regime | (smr 2164)

Contribution ID : 40

Type : **not specified**

A phonon-tunneling approach to support-induced dissipation of nanomechanical resonators

Friday, 10 September 2010 09:00 (0:40)

Content

Summary

Primary author(s) : IGNACIO WILSON-RAE (Technische Universitaet Munchen, Germany)

Presenter(s) : IGNACIO WILSON-RAE (Technische Universitaet Munchen, Germany)

Session Classification : A phonon-tunneling approach to support-induced dissipation of nanomechanical resonators
