

Workshop on Nano-Opto-Electro-Mechanical Systems Approaching the
Quantum Regime | (smr 2164)

Contribution ID : 46

Type : **not specified**

Quantum limits of photothermal cavity cooling and GaAs disk optomechanics

Friday, 10 September 2010 14:00 (0:40)

Content

Summary

Primary author(s) : IVAN FAVERO (Universite Paris Diderot, France)

Presenter(s) : IVAN FAVERO (Universite Paris Diderot, France)

Session Classification : Quantum limits of photothermal cavity cooling and GaAs disk optomechanics
