Advanced School on Understanding and Prediction of Earthquakes and other Extreme Events in Complex Systems | (smr 2265)

Contribution ID : 52 Type : not specified

Computational Geodynamics for Geohazard Analysis. Part 2

Wednesday, 5 October 2011 14:30 (0:45)

Content

Summary

Primary author(s): PROF. A. ISMAIL-ZADEH (International Institute of Earthquake Prediction Theory and Mathematical Geophysics, Russian Academy)

Presenter(s): PROF. A. ISMAIL-ZADEH (International Institute of Earthquake Prediction Theory and Mathematical Geophysics, Russian Academy)

Session Classification: Computational Geodynamics for Geohazard Analysis. Part 2
