

Dynamical systems and bifurcation theory with applications to the dynamics of planet earth (Directors: K. Mora - S. Hittmeyer). Non-smooth systems: experiments and applications to earthquake engineering

Friday, 31 May 2013 11:15 (1:45)

Content

Summary

Primary author(s) : LAWRIE VIRGIN (Duke University, United States of America)

Presenter(s) : LAWRIE VIRGIN (Duke University, United States of America)

Session Classification : Dynamical systems and bifurcation theory with applications to the dynamics of planet earth (Directors: K. Mora - S. Hittmeyer). Non-smooth systems: experiments and applications to earthquake engineering
