Seventh ICTP Workshop on the Theory and Use of Regional Climate Models | (smr 2581)

Tuesday 13 May 2014

- AGH (Kastler Lecture Hall) (09:00-14:00)

time	title	presenter
09:00	The Med-Cordex perspective for regional earth system modeling	P. RUTI
09:30	The MITgcm, a versatile ocean regional model: the Mediterranean Sea case	G. SANNINO
10:00	Testing RegCM 4.4 over Europe and a possible application of the Factor Separation method	C. TORMA
10:30	coffee break	
11:00	Planetary boundary layer schemes in RegCM: evaluation and impact on the climate change signal over Europe and Mediterranean region	I. GUETTLER
11:30	The Euro-CORDEX Initiative: A new generation of regional climate scenarios for Europe	A. PREIN
12:00	Estimates of <i>Ambrosia artemisiifolia</i> L. pollen emission and dispersion in Europe using RegCM	L. LIU
12:30	lunch break
