# 7th International Workshop on Multiple Partonic Interactions at the LHC | (smr 2732)

## Thursday 26 November 2015

### MPI & Small x & Diffraction - Leonardo Building - Budinich Lecture Hall (11:25-14:25)

| time  | title                                                            | presenter          |
|-------|------------------------------------------------------------------|--------------------|
| 11:25 | Multi(3)-particle production in DIS at small x                   | J. JALILIAN-MARIAN |
| 11:50 | Double scattering contribution to small-x processes              | L. SZYMANOWSKI     |
| 12:15 | Application and calculation of amplitudes with off-shell partons | A. VAN HAMEREN     |
| 12:40 | Lunch                                                            |                    |
| 14:00 | Results of the LHCf experiment so far and future prospect        | K. KASAHARA        |
