

21st International Workshop on Computational Physics and Materials
Science: Total Energy and Force Methods | (smr 3814)

Contribution ID : 4

Type : **not specified**

An efficient ab initio computational method for extended Hubbard interactions

Wednesday, 11 January 2023 10:10 (0:30)

Content

Summary

Presenter(s) : YOUNG-WOO SON (Korea Institute for Advanced Study, Republic of Korea)

Session Classification : Hubbard U
