21st International Workshop on Computational Physics and Materials Science: Total Energy and Force Methods | (smr 3814)

Thursday 12 January 2023

Time-resolved phenomena and excited-state dynamics II - Budinich Lecture Hall (LB)
(09:40-11:10)

Chairs: Jeff NEATON (UC Berkeley Physics, USA)

time	title	presenter
09:40	Tuning Optical Excitations in Quasi-Low Dimensional Hybrid Organic-Inorganic Metal- Halide Perovskites	MARINA R. FILIP
10:10	Simulating Disorder in Organic LEDs using Large Scale Density Functional Theory	LAURA RATCLIFF
10:40	Coffee break
