Science and Sustainable food: How Scientific Instruments Can Help Food and Biodiversity Issues for the Planet and its Inhabitant's Health | (smr 3827)

Wednesday 22 February 2023

Sustainability and science - Giambiagi Lecture Hall (AGH) (11:15-18:30)

Moderator: Michele MORGANTE (Workshop Scientific Coordinator)

time	title	presenter
11:15	The power of meaning	GIOVANNI CARRADA
11:35	Q&A discussion	
11:40	Innovation through DNA and RNA technologies	PIERDOMENICO PERATA
12:00	Q&A discussion	
12:05	A new synchrotron in Latin America for biodiversity and agriculture (remote)	GALILEO VIOLINI
12:25	Q&A discussion	
12:30	Light lunch	
14:00	Pathways to sustainability with digital agriculture: towards carbon-negative crop production (remote)	BRUNO BASSO
14:15	Q&A discussion	
14:20	Will ocean feed the humanity? Sustainability approaches to fishery	SIMONE LIBRALATO
14:35	Q&A discussion	
14:40	How sustainable aquaculture can contribute to feed the world	BASILIO RANDAZZO
14:55	Q&A discussion	
15:15	Coffee break	
15:30	Sustainable Food Systems – the EU experience (remote)	GIJS SCHILTHUIS
15:45	Q&A discussion	
15:50	Sustainability, consumers and marketing	ANDREA ILLY
16:05	Q&A discussion	
16:10	Multistakeholder platforms as a best practice for supporting sustainable agriculture in fragile ecosystems	FEDERICO MATTEI
16:25	Q&A discussion	
16:30	Get together drink
