

Intro to Quantum Computing Exercise Session

Monday, 17 April 2023 13:30 (1:00)

Content

- Short Hardware introduction/NISQ
- Introduction to TKET – overview, motivation, design
- Building quantum circuits – registers, gates, OpTypes
- Simulating quantum circuits, measurement, running on backends and sampling
- Transforming/compiling quantum circuits

Summary

Presenter(s) : KATHRIN SPENDIER AND CALLUM MACPHERSON
