Workshop on Frontiers in Excited State Electronic Structure Methods: from Spectroscopy to Photochemistry | (smr 3836)

Tuesday 16 May 2023

notitle - Kastler Lecture Hall (AGH) (08:45-14:15)

Chair: Martina STELLA, ICTP, Italy

time	title	presenter
08:45	Welcome remarks	
09:00	Charge and Exciton Transport in the Transient Delocalization Regime	JOCHEN BLUMBERGER
10:00	Coffee break	
10:20	Excitations in Large Systems using Transition-Based Constrained Density Functional Theory	LAURA RATCLIFF
11:20	Break	
11:40	Quantitative method for determining the effect of the environment on the quantum yield of indole	MARIANO CAMILO GONZALEZ LEBRERO
12:45	Lunch
