Workshop on Frontiers in Excited State Electronic Structure Methods: from Spectroscopy to Photochemistry | (smr 3836)

Thursday 18 May 2023

notitle - Kastler Lecture Hall (AGH) (08:45-14:00)

Chair: Uriel MORZAN, ICTP, Italy

time	title	presenter
08:45	Learning about molecular excited states from high-throughput calculation: discovery and insight	ALESSANDRO TROISI
09:45	Coffee break	
10:10	Exploring Plasmon Decay in Metallic Nanoparticles with Time-Dependent DFTB	CHRISTIAN SANCHEZ
11:10	Break	
11:30	Vibrational Funnel for Energy Transfer in Organic Chromophores: Identification, monitoring and freezing normal modes	SEBASTIAN FERNANDEZ ALBERTI
12:45	Lunch
