3rd Workshop on Cloud Organisation and Precipitation Extremes - WCO3 | (smr 3870)

Tuesday 05 September 2023

Convective Self-Aggregation II, RCE - Kastler Lecture Hall (AGH) (11:00-12:30)

time	title	presenter
11:00	Numerical diffusion and turbulent mixing in convective self-aggregation	LORENZO SILVESTRI
11:15	A dimensionless parameter for predicting the onset of self-aggregation in a stochastic reaction-diffusion model of tropical radiative-convective equilibrium	GIOVANNI BIAGIOLI
11:30	Competing Effect of Radiative and Moisture Feedback in Convective Aggregation States in Two CRMs	MIRIAM SARACENI
11:45	Relationships between clouds, circulation, and radiation in long-channel radiative convective equilibrium simulations	PETER GORDON HILL
12:00	The Role of Surface Thermodynamic Gradients on the ITCZ Properties in Reanalyses and Idealised Simulations over an Aquapatch	MAXIME COLIN
12:15	Discussion
