3rd Workshop on Cloud Organisation and Precipitation Extremes - WCO3 | (smr 3870)

Friday 08 September 2023

Extreme Events - Kastler Lecture Hall (AGH) (11:00-12:30)

| time | title | presenter |
|-------|---|------------------------------|
| 11:00 | Complexity in Colombian precipitation extremes from a non-extensive approach | ISABEL CRISTINA HOYOS RINCON |
| 11:15 | Extreme Precipitation Events over the Mexican coast of the tropical Eastern Pacific: Synoptic precursors and WRF modeling | VICTOR TORRES |
| 11:30 | Mesoscale convective systems differences causing precipitation extremes on separate scales | BENJAMIN FILDIER |
| 11:45 | Intensification of tropical precipitation extremes from more organized convection | JIAWEI BAO |
| 12:00 | Reasonable worst-case scenarios from ensemble rainfall forecasts and their use in surface water flood forecasting | BEN MAYBEE |
| 12:15 | Closing remarks | |
