This School is a certificate course providing specialized education and training on development and implementation of knowledge management programmes in nuclear science and technology organizations. It is intended for young professionals in current or future leading roles in managing nuclear knowledge.

Director:

I.A. GORDON, IAEA, Austria

Description:

Jointly organized by ICTP and the IAEA since 2004, this Nuclear Knowledge Management (NKM) School focuses on methodologies and practices and explores various dimensions of nuclear knowledge management.

These include processes and tools, challenges and benefits, culture influence, relationship with human resource development, IT for knowledge preservation and sharing. Learning is supplemented with real life examples from NKM programmes in different types of nuclear organizations.

The aim is to encourage 'forward thinking' and to enable participants to apply theory and insights in their daily work. Lectures at the ICTP by recognized experts are followed by case studies, practical work and breakout sessions where participants will have the opportunity to discuss issues and solutions.

NKM group projects are also developed over the week. Shortlisted candidates will undergo an on-line preliminary training course and a test, the results of which will be one of the elements to define the final list of participants.

Topics:

- Nuclear knowledge and knowledge management fundamentals
- Developing policies and strategies in managing nuclear knowledge
- Human resources development
- Risk of knowledge loss and knowledge transfer
- Practical guidance and good practices on NKM

Local Organiser:

R. KAISER, ICTP, Italy

How to apply:

Online application:
<http://indico.ictp.it/event/10220/>

Female scientists are encouraged to apply.

Grants:

A limited number of grants are available to support the attendance of selected participants, with priority given to participants from developing countries. There is no registration fee.

Deadline:

3 March 2023
