

The Increasing Danger of Nuclear Weapons: How Physicists Can Help Reduce the Threat | (smr 3889)

Contribution ID : **180**

Type : **not specified**

Current efforts involving physicists

Tuesday, 24 October 2023 11:00 (1:30)

Content

Deutsche Physikalische Gesellschaft/FONAS (Götz NEUNECK, University of Hamburg, Germany)
The American Physical Society (Laura GREGO, Union of Concerned Scientists, USA)
Activism in the UK (David ELLWOOD, British Pugwash)
Early-career scientist activities (Talía WEISS, Yale University, USA)
UCS Global Security Program (Tara DROZDENKO, Union of Concerned Scientists, USA)
The Physicists Coalition for Nuclear Threat Reduction (Stewart PRAGER, Princeton University, USA)
Princeton Program on Science and Global Security (Zia MIAN, Princeton University, USA)

Summary

Session Classification : Physicists as Advocates for Reducing Nuclear Weapons Dangers
