

# ICTP-SCOSTEP-ISWI Workshop on the Predictability of the Solar-Terrestrial Coupling - PRESTO | (smr 3898)

Contribution ID : **52**

Type : **not specified**

## **Understanding and modelling of solar irradiance variations on climate-relevant timescales**

*Thursday, 1 June 2023 10:20 (0:25)*

### **Content**

20 min presentation + 5 min discussion

### **Summary**

**Presenter(s) :** NATALIE KIROVA (MPS, Germany)

**Session Classification :** SESSION 5. Solar forcing specification and impacts on the atmosphere and climate <br>SESSION 6. Precipitating energetic particles and their effects on atmosphere <br>SESSION 7. Predictability of the solar cycle
