

ICTP-SCOSTEP-ISWI Workshop on the Predictability of the  
Solar-Terrestrial Coupling - PRESTO | (smr 3898)

Contribution ID : 54

Type : **not specified**

## Historical datasets and the solar cycle

*Thursday, 1 June 2023 11:00 (0:25)*

### Content

20 min presentation + 5 min discussion

### Summary

**Presenter(s)** : THEODOSIOS CHATZISTERGOS (Max Planck Institute for Solar System Research, Germany)

**Session Classification** : SESSION 5. Solar forcing specification and impacts on the atmosphere and climate <br>SESSION 6. Precipitating energetic particles and their effects on atmosphere <br>SESSION 7. Predictability of the solar cycle
