

ICTP-SCOSTEP-ISWI Workshop on the Predictability of the
Solar-Terrestrial Coupling - PRESTO | (smr 3898)

Contribution ID : 43

Type : **not specified**

Capabilities and Improvements in Models used for the NOAA Solar Irradiance Climate Data Set (CDR)

Wednesday, 31 May 2023 11:55 (0:25)

Content

20 min presentation + 5 min discussion

Summary

Presenter(s) : ODELE CODDINGTON (LASP, Univ. of Colorado Boulder, USA)

Session Classification : SESSION 5. Solar forcing specification and impacts on the atmosphere and climate
