6th Workshop on Water Resources in Developing Countries: Hydroclimate Modeling, Information Tools and Simulation Techniques | (smr 3939)

Friday 24 May 2024

- Giambiagi Lecture Hall (AGH) (09:00-18:00)

time	title	presenter
09:00	"WRF-Hydro hydrological model and its use in ARPA FVG"	SARA BACER
10:00	Coffee break	
10:30	The role of hydrological boundary conditions in hydrodynamic coastal modeling: the experience of ARPA FVG"	ALESSANDRO MINIGHER
11:30	Coupling EM-DAT Reported Flash Floods with IMERG Precipitation Data	LEONARDO QUIRINO OLVERA
11:45	Future changes in hydrological drought characteristics Over Pra River basin, Ghana	MARTIN ADDI
12:00	Projection of Climate Changes and Numerical Modeling of Climate in the Rheris Watershed-Morocco	ABDELMOUMEN BENCHATTOU
12:15	Integrated Approach for Ensuring Sustainable Water Resources in Narmada River Basin under Land Use and Climate Change Scenarios	DEEN DAYAL
12:30	Lunch break	
14:00	Lab - "The sensitivity of shallow water hydrodynamic simulations to hydrological boundary conditions"	ALESSANDRO MINIGHER (ARPA FVG, ITALY), DARIO GIAIOTTI (ARPA FVG, ITALY)
15:30	Coffee break	
16:00	Lab - "The estimate of the river discharge using the fitted rating curves"	GIOVANNI BONAFA' (ARPA FVG, ITALY), SARA BACER (ARPA FVG, ITALY)
