

Introduction to the tasks of the day: Scenario Development

Thursday, 15 August 2024 09:00 (1:30)

Content

Students will be introduced to the concept of scenarios and how they apply to MAED. They should already have an understanding of this due to the literature review. They are encouraged to read previous EMP MAED outputs to see what other candidates have done.

Summary

Presenter(s) : FYNN KILEY (University of Cambridge, UK)

Session Classification : MAED Track: Energy demand assessment and scenarios: MAED and EBS tools
