

Joint ICTP-IAEA Nuclear Energy Management School

Description:

This School is a certificate course introducing participants to the foundation skills and knowledge required to successfully manage and lead a nuclear energy programme. The target audience for this training event is new and young nuclear professionals entering the field of nuclear energy and nuclear technology.

MORE DETAILS:

Objectives of this training event are to:

- Provide an international educational experience and an opportunity for worldwide networking to future leaders and managers of nuclear energy;
- Raise awareness of participants about recent developments in nuclear energy;
- Broaden participants' understanding on key issues and challenges associated with peaceful uses of nuclear energy;
- Introduce participants to the leadership and managerial competencies needed to successfully run the national nuclear energy programme.

TOPICS:

- Introduction to the IAEA and nuclear technology
- IAEA and its services
- Overview of nuclear applications
- Climate change and the economics of nuclear energy
- An integrated approach to human resource development and nuclear knowledge management
- Management and leadership in a nuclear organization
- Nuclear safety
- Nuclear security
- Nuclear safeguards
- Emergency planning, preparedness and response
- Radiation safety and protection
- Nuclear law
- Nuclear power
- Nuclear fuel cycle and waste management

The School is only open to anyone who has not previously participated in an IAEA NEM School.

9 - 20 September 2024

Trieste, Italy

Deadline:

29 February 2024

DIRECTOR:

A. IUNIKOVA, IAEA, Austria

LOCAL ORGANISER:

R. KAISER, ICTP, Italy
