

Joint ICTP-IAEA Nuclear Stakeholder Engagement School

Description:

The School is a five-day training course designed to enhance understanding of stakeholder engagement as an essential element of a complete nuclear power programme.

MORE DETAILS:

The School will highlight the need for continuous engagement of various stakeholder groups in nuclear energy projects and the need to embed stakeholder engagement in organizational management processes and organization's core values. Offering both theoretical and practical learning, it will cover a range of topics, from psychology of human decision making to effective stakeholder engagement tools, methods and approaches.

It is aimed at executives, managers and professionals working in governmental and regulatory bodies, technical support, operating and other organizations from across the nuclear industry of IAEA Member States, who are directly or indirectly involved with stakeholder engagement programmes.
