

PHYSICS WITHOUT FRONTIERS ANNUAL MEETING 2023

Inspiring and training students in Physics and Maths Worldwide

The 2023 Physics Without Frontiers Annual Meeting will bring together some of our PWF project leaders to showcase their activities and the impact in their countries and regions.

With our international network of volunteers, Physics Without Frontiers has worked with over 50 countries in the Global South, to help build the next generation of scientists!

Register free to join the meeting, take part in the discussions, and learn what young scientists are doing around the world to support each other in science.

2pm - 4pm CET, 30 November 2023
