# 4th Workshop on convective organization and precipitation extremes (WCO4) | (smr 3992)

## Friday 12 July 2024

**Conceptual models (part 2) - Kastler Lecture Hall (AGH) (11:00-12:45)**

***Chairperson: Adrian TOMPKINS (ICTP, Italy)***

time	title	presenter
11:00	Interaction of diurnal convection with a large-scale overturning circulation	JAN HAERTER
11:15	Autocorrelation – A Simple Diagnostic for Tropical Precipitation in Global Kilometer-Scale Climate Models	MICHELA BIASUTTI
11:30	A Predator-Prey Model for Nonlinear Precipitation Oscillations in Warm Climates	DA YANG
11:45	Shallow-to-deep transition of atmospheric convection in analogy to the organization in a predator-prey system	CRISTIAN-VALER VRACIU
12:00	Evolutionary ecology of convective organization	BRIAN EARLE MAPES
12:15	Discussion	
12:30	Closing remarks
