22nd International Workshop on Computational Physics and Materials Science: Total Energy and Force Methods | (smr 4050)

Contribution ID : 29

Type not specified

Variational formulation of dynamical electronic response functions in Bethe-Salpeter, (screened) Hartree-Fock, Hybrid-DFT approaches

Friday, 10 January 2025 11:10 (0:30)

Content

Summary

 Presenter(s):
 CALDARELLI, Giovanni (University of Rome "La Sapienza", Italy)

 Session Classification:
 Ab initio modeling of particle-material interactions
