Joint ICTP-IAEA-MAMBA School on Materials Irradiation: from Basics to Applications | (smr 4055)

Tuesday 11 February 2025

- Giambiagi Lecture Hall (AGH) (09:00-16:45)

time	title	presenter
09:00	Effects of different ionizing radiations on blood cells	ANALIA ALET
10:30	Coffee Break	
11:00	Properties of a dosimetric material from an experimental point of view	GUERDA MASSILLON
11:45	Dosimetric materials: what do we need to know?	GUERDA MASSILLON
12:30	Lunch Break	
14:00	Particle impact: from inelastic collision cross sections to the calculation of physical parameters of interest in hadron therapy	MARIEL GALASSI
15:30	Coffee Break	
16:00	Activities at IAEA, fusion materials	KALLE HEINOLA
