

ATLAS Italy Top Workshop

3 - 4 February 2025

ICTP Adriatico Guest House
Giambiagi Lecture Hall

The annual workshop on ATLAS Italy top quark physics activities will be held this year in ICTP in Trieste.

**A theory for experimentalist talk
“The bearable topness of New Physics”
will be given by David Marzocca
(INFN Trieste) on Monday afternoon and is
open to the general public.**

The remaining sessions will present current top quark physics analysis as well as tutorial on technical tools and are restricted to the ATLAS community.
